Tamil Nadu Clinical Establishments (Regulations) Rules, 2018

Published vide Notification No. G.O. Ms. No. 206, Health and Family Welfare (Z2), 1st June 2018, Vaikasi 18, Vilambi, Thiruvalluvar Aandu - 2049

Last Updated 30th January, 2020

No. SRO A-30(b)/2018. - In exercise of the powers conferred by sub-section (1) of section 14 of the Tamil Nadu Clinical Establishments (Regulation) Act, 1997 (Tamil Nadu Act 4 of 1997), the Governor of Tamil Nadu hereby makes the following Rules, namely: -

1.

Short title.

- These rules may be called the Tamil Nadu Clinical Establishments (Regulation) Rules, 2018.

2.

Definitions.

(1)

In these rules, unless the context otherwise requires, -

(a)

"Act" means the Tamil Nadu Clinical Establishments (Regulation) Act, 1997 (Tamil Nadu Act 4 of 1997);

(b)

"Advisory Committee" means the Committee constituted at State Level under clause (1) of section 2-A of the Act;

(c)

"clinic" means a place where treatment for illness is offered without or with injections, minor operations, dressing etc., to the patients for observation. It may include endoscopic clinic, AYUSH Clinic or any other establishment offering treatment for illnesses by use of Medicines or any therapy under Allopathy, Siddha, Unani, Ayurveda, Yoga and Naturopathy or Homeopathy (AYUSH) or any other Government recognised systems of Medicine;

(d)

"clinical laboratory" means a place where bio-medical or bio-chemical or clinical pathology or biopsy or bacteriological or genetic investigations or any diagnostic tests or investigative services are carried out;

(e)

"consulting room" means a place where consultation, which includes examination of the patients and issue of prescription is done and advice is given;

(f)

"Dental clinic" means a clinic where treatment for dental ailments is given;

(g)

"Dental hospital" means a place where patients are treated as inpatient and treatment is given for dental ailments;

(h)

"District Committee" means the Committee constituted in each district under clause (1) of section 2-D of the Act;

(i)

"Doctor" means and includes a Registered Medical Practitioner offering consultations or treatment under Allopathy or AYUSH;

(j)

"Form" means a Form specified in Annexure-II to these rules;

(k)

"hospital" means and includes a Nursing Home or Health Centre or Treatment Centre or any other place where facilities for admission as in-patients for treatment of illness with or without surgery or conduct of delivery etc., with or without out-patient facilities and diagnostic facilities like laboratory etc., in any recognised system of medicine;

(l)

"maternity hospital" means a hospital where delivery and other maternity services with or without surgeries and Gynaecological services including surgeries like Hysterectomy, Cesarean operations are undertaken.

(m)

"patient" means a person who reports himself or brought to any hospital including a dental hospital for treatment or consultation or seeking any other services rendered by the hospital;

(n)

"polyclinic" means a clinic where more than one doctor offers consultation with or without treatment for illness in any recognised system of medicine;

(o)

"Registered Medical Practitioner" means a person who possess any of the Government recognised medical qualification and who has been enrolled in the register of the respective Council viz., Medical, Dental, Siddha, Ayurveda, Unani or Homeopathic Councils or the Board of Indian Medicine or any such Council, Board or any other statutory body recognised by the Government of Tamil Nadu;

(p)

"Staff Nurse" means a person who possess the required qualification from any of the Nursing Teaching Institutions, recognised by the Government of Tamil Nadu and that person must have enrolled in the Tamil Nadu Nurses and Midwives Council under the Indian Nursing Council Act, 1947 (Central Act XLVIII of 1947) or any of the State Nursing

Council in India recognised by the Indian Nursing Council and those who have completed the Diploma in Integrated Nursing in Indian System of Medicine Colleges and registered in the Directorate of Indian Medicine for Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy establishments.

(2)

Words and expressions used in these rules and not defined shall have the same meaning assigned to them in the Act.

3.

Procedure, Quorum and Minutes of State Level Advisory Committee meeting.

(1)

Every notice, calling for meeting of the State Level Advisory Committee shall, -

(a)

specify the place, date and hour of the meeting;

(b)

be served upon every member of the State Level Advisory Committee not less than seven clear days before the day appointed for the meeting.

(2)

The Chairperson shall prepare and circulate to the members along with the notice of the meeting, an agenda for such meeting showing the business to be transacted.

(3)

The quorum for the meeting shall be not less than four. If within half-an-hour of the time appointed for the meeting, quorum is not present, the meeting shall be adjourned to the same day in the following week at the same time and place and the presiding officer of such meeting shall inform this to the members present, and the notice to the other members shall be communicated by speed post.

(4)

The minutes of the meeting shall be communicated to the Government.

4.

Procedure, Quorum and Minutes of District Committee meeting.

(1)

Every notice, calling for meeting of the District Committee shall, -

(a)

specify the place, date and hour of the meeting.

(b)

be served upon every member of the District Committee not less than seven clear days before the day appointed for the meeting.

(2)

The chairperson shall prepare and circulate to the members along with the notice of the meeting, an agenda for such meeting showing the business to be transacted.

(3)

The quorum for the meeting shall be not less than four. If within half-an-hour of the time appointed for the meeting, quorum is not present, the meeting shall be adjourned to the same day in the following week at the same time and place and the presiding officer of such meeting shall inform this to the members present and the notice to the other members shall be communicated by speed post.

(4)

The minutes of the meeting shall be communicated to the Government and the Competent Authority.

5.

Duties of District Committee.

- In addition to the duties and responsibilities specified in the Act, the District Committee shall also perform the following duties, namely, -

(1)

scrutinise the applications received as directed by the competent authority;

(2)

inspect clinical establishment under the direction of the competent authority;

(3)

examine the complaints, if any received pertaining to the implementation of the Act and refer the same to the Government through the competent authority.

(4)

any other duties as may be directed by the competent authority or by the Government from time to time.

6.

Minimum facilities of a clinical establishment.

- The floor space and other facilities, the minimum number of staff and their minimum qualification, the minimum equipment and other conditions required for a clinical establishment of different systems, for providing different medical services including specialized services shall be in accordance with the norms and conditions specified in Annexure-I to these rules.

7.

Application for registration.

(1)

Every application for registration of a clinical establishment shall be made, either in person or by Registered Post with acknowledgement due to the competent authority in Form-I, accompanied by a fee for a sum of rupees five thousand in the form of demand draft or treasury challan drawn in favour of the competent authority.

(2)

If a clinical establishment is offering services in more than one recognised system of medicine separate application shall be made for each such system of medicine.

8.

Certificate of registration.

- On receipt of an application for registration of a clinical establishment, the competent authority shall, after satisfying itself that the applicant fulfils all the requirements of the Act and these rules, grant a Certificate in Form-II within one eighty days from the date of receipt of the application. The Certificate of Registration is non-transferable.

9.

Time limit for renewal.

- Every application for renewal of Certificate of Registration shall be submitted to the competent authority ninety days before the expiry of its validity.

10.

Duplicate certificate.

- An application for issue of a duplicate Certificate of Registration shall be made to the competent authority accompanied by a fee for a sum of rupees three hundred.

11.

Duties of clinical establishment.

- In addition to the duties and responsibilities specified in the Act, every clinical establishment shall, -

(a)

display a copy of the Certificate of Registration in a prominent place of the premises open to the public;

(b)

maintain records in electronic form showing the names, addresses and the qualifications of its employees and the equipments maintained by it;

(c)

record and preserve all changes in the employment of the staff and the equipments and intimate the same to the competent authority;

(d)

maintain clinical records (i.e any paper, film, printout, slide, solution, medium which can be deciphered or used to indicate and diagnose the condition of the human body or a part of it or any material taken out of it and the course of treatment administered to or undergone by the person), of its activities relating to a patient.

(e)

keep every record open for inspection by the competent authority;

(f)

surrender the Certificate of Registration and apply for fresh registration on change of ownership of the clinical establishment, on change of system of medicine for treatment;

(g)
surrender the Certificate of Registration, on ceasing to function as a clinical establishment.

12.
Maintenance of medical records.

- Every clinical establishment shall maintain records with particulars relating to the clinical observation, test, investigation, diagnostic opinion advice and treatment given to the person, who has visited the hospital either as an in-patient or out-patient in Form III.

13.
Annual Publication of list of clinical establishments.

- The competent authority shall, during the month of January of every year, publish the list of clinical establishments in the Tamil Nadu Government Gazette in Form IV.

14.
Appeal.

(1)
An appeal against an order of the competent authority rejecting an application for registration under sub-section (2) of section 4 or an order of suspension or cancellation of registration under sub-section (2) of section 5 or any direction of the competent authority under section 6, shall lie to the Director of Medical and Rural Health Services, within thirty days from the date of receipt of that order or direction.

(2)
The Director of Medical and Rural Health Services on receipt of such appeal, if he considers that, an interim order is necessary in the matter, he may pass such an order.

(3)
The Director of Medical and Rural Health Services may within sixty days from the date of receipt of such appeal, after giving a reasonable opportunity of being heard, pass such order, as he deems fit.

(4)
The decision of the appellate authority shall be communicated to the person concerned within seven days from the date of passing of such order.

(5)
The decision of the appellate authority shall be final and binding.

(c)

Equipment. - The following equipments and hospital accessories shall be made available, namely:-

(i)

Labour Board with lithotomic stand

(ii)

Saline Stand

(iii)

Oxygen Cylinder with Vent mask

(iv)

P.V. Tray with equipment

(v)

Dilation & Curettage (C & A) Set

(vi)

Focus Lamp

(vii) Trolleys for instrument and to receive the baby

(viii)

Vaccine extractor / Forceps delivery set

(ix)

Sterile core clamp

(x)

Antiseptic lotions

(xi)

Suction apparatus

(xii)

Baby resuscitation set

(xiii)

Baby Warmer (a light may also do)

(xiv)

Baby mucus sucker (disposable)

(xv)

Paediatric ambu bag

(xvi)

Suturing tray for episiotomy and suturing.

(d)

Drugs. -

- Injection Methergin

5 adenosine monophosphate

- Injection Pitocin

5 adenosine monophosphate

- Injection Carboprost

5 adenosine monophosphate

- I.V. Fluids 5% dextrose 2 bottles.

- 5% dextrose or Saline

- Ringer lactate.

- Inj. Diazepam

2 amp

- 2% Lignocane

Vial - 1

- Disposable Syringe

10 Numbers

- Injection Vitamin K

- Injection Eptoin

(e)

Records. -

(i)

Birth Register

(ii)

Birth intimation slip

(iii)

Case sheets and notes to be recorded

(iv)

Register for babies and mothers to prevent child changing.

(14)

Operation Theatre. -

(a)

Minor Operation Theatre. - Where septic cases and minor surgeries like abscess, Incision and Drainage (I&D) and septic cases like amputations etc., are carried out.

(i)

Space. - Sufficient space - not less than 100 square feet with adequate lighting and ventilation.

(ii)

Staff. - All surgeries in minor operation theatre shall be carried out by qualified doctor only. However dressings can be done by a Nurse or a Nursing Assistant.

(iii)

Equipments. - Operation table.

- Focus light

- Sterilizer

- Autoclave

- Bins

- Saline Stand

- Minor surgical equipments

- Regional Anaesthesia equipment

- Sterile gloves

- Sterile syringes

- Drugs as required

- Drugs for emergency tray

- Boyle's apparatus with Oxygen cylinder, Nitrous Oxide Cylinder (Desirable)

- Suction apparatus

- Baby resuscitation set

(iv)

Records. - Records of all surgeries done in minor operation theatre shall be entered in a register.

(b)

Main Operation Theatre. -

(i)

Space. - Shall have sufficient space with a minimum of 150 square feet is essential, well lit preferably air-conditioned. Other than the operating room, there shall be provision for patient waiting and a cot provided for postoperative recovery. Sufficient space shall be available for autoclave and sterilization and for scrubbing. Running water from the tap shall be available in the scrub room. Ultra violet lamps shall be fitted in the operation theatre. Sufficient arrangements for formalisation of operation theatre. Swab for culture to be taken from operation theatre at least once a month.

(ii)

Staff. - A qualified nurse shall be the head of nursing staff in the Operation Theatre. Anaesthesia to be provided by a qualified Anaesthetist or by a doctor only who is trained in anaesthesia. Surgeries shall be performed by qualified doctors only.

(iii)

Equipments. - Operating table

- Focus Light preferably wall mounted

- Boyle's apparatus with sufficient cylinders

- Monitoring devices like

(a)

Cardiac monitor - must

(b)

Pulse Oximeters - must

- Suction apparatus preferably two

- Sterilizer, Autoclave

- Surgical equipments for surgery

- Sterile bin

- Stretcher for shifting of patient

- Anaesthesia Kit.

(iv)

Records. - Record of all surgeries performed shall be available in a register duly with name, age, sex, address of patient, Surgeon, Anaesthetist and Staff Nurse also to be entered. Biopsy reports also shall be entered.

(15)

Intensive Care Unit. - An Intensive Care Unit may be maintained in all Nursing Homes / Hospital having more than hundred beds. The following norms are to be maintained, namely:-

(a)

Space. - A well ventilated preferably air conditioned room with sufficient lighting is essential. If four Cots are there, a minimum space of 240 square feet is needed. Sufficient space for keeping ventilators and monitors to be available. Space for duty doctor and nurse shall also be available. There shall be provision for attendants outside the Intensive Care Unit.

(b)

Staff. - One doctor for every ten beds for day time. If there are more than ten beds, one additional doctor for every additional five beds. Similar provision shall be made for night time.

(c)

Nurse. - One qualified nurse for up to six beds for day time. An another qualified nurse for every additional three beds. This similar arrangement shall be made for night time.

(d)

Equipments. -

- Intensive Care Unit Cots

- Saline Stands

- Ventilators

- Cardiac Monitor

- Pulse Oximeter

- Defibrillator

- Suction apparatus

- Oxygen supply (either Cylinder or central supply)

- Incubation equipments

- Drugs

- Generator

(e)

Records. - A record of in-patients in Intensive Care Unit shall be available in a register as to their illness, treatment offered, specialists visited - Out come etc.,

(16)

Medical Record Maintenance in a Hospital. - The following records shall be maintained, namely:-

(i)

Admission and Discharge Register.

(ii)

Case sheets

(iii)

Referrals

(iv)
Infectious and Communicable disease Register.

(v)
Immunisation particulars

(vi)
Family Welfare Services

(vii)
Medico Legal Records

(viii)
Maternal Death Record

(ix)
Infant Death record

(x)
1 to 5 years Child Death records

(xi)
any other record as may be required by the Government, from time to time.

V. Maternity Hospitals. - In addition to facilities/ Norms specified for Nursing Homes / Hospitals, a labour room and an operation theatre is preferable facilities for transport of patients like an Ambulance or tie up arrangement with a Central Ambulance Service is desirable.

VI. Dental Clinic. - (1) Building. - The consulting room if it accommodates the Dental Chair also shall be having sufficient space not less than 100 square feet. The room shall be well ventilated and shall have sufficient lighting arrangements. Space for keeping the Sterilizer and Trays to be provided. Sufficient space for patient waiting to be provided outside the consulting room.

(2)
Staff. - Dental Surgery, Consultation and prescription shall be performed by a qualified Dental Surgeon only as per the Indian Dentist Act, 1948 (Central Act XVI of 1948). Injections and administration of anaesthesia shall be done by the dental surgeon himself. X-Ray shall be taken by a qualified Radiographer or by the Dentist.

(3)
Equipments. - (a) Dental Chair

(b)
Provision of water for surgery

(c)
Steriliser

(d)
Bin for sterile cotton gauze etc.

(e)
Trays with instruments

(f)
Dental instruments

(g)
X-Ray (desirable)

(h)
Disposable (optional) / autoclaved syringes.

(4)
Records. - A record of the patients treated along with name, age, sex, disease and treatment given shall be available. A slip shall be given to the patient with all the above particulars.

VII . Dental Hospitals. - Out-patient department. - The outpatient department of a dental hospital shall conform to the norms prescribed to a Dental Clinic. In addition, sufficient waiting room shall be provided to the patients. Wards, Operation Theatre and other aspects shall be as per the norms prescribed to the nursing homes and hospitals.

Radioisotope related work as per the regulatory agency Atomic Energy Regulatory Board (AERB) requirement.

The Laboratories shall ensure standards prescribed by the National Accreditation Board for Testing and Calibration of Laboratories for the personal, qualification etc., Quality assurance in Lab Service, Internal Quality and External Quality should be ensured.

(2)

Staff. - (a) The Biopsy examination and reporting shall be done by a Pathologist or by a Trained Doctor. When culture and sensitivity tests are carried out, a Microbiologist either Medical or non-Medical shall be available, Cytology reports shall be given by a Pathologist only.

(b)

Qualification for technical staff. - The staff performing the technical tests shall have the following qualifications, namely:-

(i)

Graduate in Medical laboratory Technology; or

(ii)

Two years Diploma course in Medical Laboratory Technology; or

(iii)

One year Certificate course in Medical Laboratory Technology with two years experience; or

(iv)

Graduate in science with one year experience in Medical Laboratory; or

(v)

Diploma in medical radiation and radioisotope technology (DMRIT) ; or

(vi)

Certificate in Cytotechnology by Indian Academy of Cytology for screening of ex-foliate cytology in addition to the above qualification for Cytotechnologist.

(c)

In a genetic laboratory, all tests shall be carried out and reporting done by a qualified Genetist or qualified doctor only. If amniocentesis is done as permitted by law it shall be done only in a Minor Operation Theatre and all facilities as needed for a Minor Operation Theatre shall be available and it shall be done by a qualified doctor under sterile conditions only.

(3)

Equipments. -

(a)

Microscopes

(b)

Calorimeter

(c)

Centrifuge

(d)

Test Tubes

(e)

Slides

(f)

Reagent as needed

(g)

Semi Auto Analyser or Auto Analyser (Optional)

(h)

Cell Counter (Optional)

(i)

Haemoglobin meter

(j)

Counting Chambers etc.

(k)

Refrigerator

(l)

Hot Air oven

(m)

Physical Balance

(n)

Micro Puppets fixed and variable volume.

(4)

Records. - All tests carried out on the Laboratory shall be recorded in a Register along with name, age, sex, investigation done report, date, etc.,

The following minimum Records to be maintained: -

(a)

Daily Results Register

(b)

Internal Quality Control Register

(c)

Sample Collection Register

(d)

Participation in External Quality Assessment Schemes Programmes.

IX. X-Ray (Radiograph) Centres. - This Centre shall include all centres of Imaging, Sciences namely, Ultra Sonogram Scan Centres, Computed Tomography (C.T.) Scan Centres, Magnetic resonance imaging (MRI) Scan Centres, X-Rays (Radiograph) as well as Electro Cardiogram (ECG), Electroencephalography (EEG) and Treadmill Echocardiography.

1. Buildings. - Sufficient space as the equipment in use demands. Sufficient space shall be provided for patient waiting and resuscitation of the patient in case of any anaphylaxis occurring, during contrast injection or after a treadmill test patient feels like resting. X ray and imaging centres shall fulfil the "Atomic Energy Regulatory Board" (AERB) norms

2. Staff. - All tests shall be carried out by qualified technical persons only as follows:-

X-Ray -

Radiographer with Clinical Research Associate

(CRA) Qualification

Ultra Sonogram -

by a qualified Doctor or by a Radiologist or

Concerned Specialist as per the provisions of the Pre-Conception

And Pre-Natal Diagnostic Techniques (Prohibition of Sex Selection) Act, 1994

Electro Cardiogram (ECG) -

by an Electro Cardiogram (ECG) Technician

trained in Electro Cardiogram (ECG) taking

Electroencephalography (EEG)

Electroencephalography (EEG) Technician trained

in Electroencephalography (EEG) taking
Computed Tomography (CT) scan
by a Radiographer and report by a Radiologist or
by the concerned specialist.

Treadmill

Concerned Technician. A doctor shall be present
during the Test.

Echo Cardiograph

by a Qualified Doctor preferably a Cardiologist

Contrast Studies

Radiologist or by the Concerned Specialist

Magnetic resonance imaging (MRI)

Radiologist or by the Concerned Specialist

3. Equipments. - Equipments according to the concerned machine.

4. Records. - Name, age, sex, address of patient, the nature of investigation done referral doctor, and result of the investigation shall be available in a register. Number of cases treated free of charges shall also be available along with name, age, sex, address and result etc.

B. Indian System Of Medicine And Homoeopathy

I. Consulting Room / Clinic / Polyclinics

1. Building. - The Consulting room shall be spacious, well ventilated and having sufficient light. The space shall be not less than 100 square feet. There shall be sufficient space for waiting of the patients etc., If it is a polyclinic, different cubicles shall be available for each doctor. The names of visiting doctors and their system of medicine shall be exhibited in front of the clinic.

2. Staff. - The clinics namely, Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy Clinics shall be manned by the registered Medical practitioner. If the pharmacy attached with the clinic, dispensing of medicines shall be done by a Pharmacist qualified under the respective system or by the doctor himself.

3. Equipment. - (a) Diagnostic equipments ordinarily needed for all AYUSH, Indian System of Medicine and Homeopathy and Yoga and Naturopathy Clinics:

(i)

Thermometer

(ii)

Sphygmomanometer

(iii)

Stethoscope

(iv)

Knee hammer

(v)

Tongue Depressor

(vi)

Torch

(vii)

Weighing machine

4. Drugs. - The drugs dispensed to the patients shall contain a label indicating the name of medicine and the name of patient to whom it is given and quantity to be given etc., the date of expiry shall be specified in the label, if the drug has an expiry date. The drug to be given internally and the drug to be used externally shall be indicated and white and red labels to be provided respectively with clear writing as "For Internal use" or " For External Use" in vernacular.,

5. Records. - A record of all patients seen as to their name, age, sex, diagnosis and treatment shall be available. The patient shall be provided with a slip with name, age, sex, diagnosis of treatment given.

II. Nursing Homes And Hospitals. -

1. Building. - The norms prescribed for consulting room or outpatient in the Allopathy system of medicine shall be fulfilled. It shall also have sufficient space for patient waiting separate cubicles for each doctors to work. The names of

the doctors and then Specialists and different facilities available in the hospital shall be put up in a board.

2. Wards or inpatient rooms. - Inpatient wards shall be spacious with ventilation and lighting. Electric fan shall be provided to each room and in common rooms one fan for at least four beds shall be provided. Toilets be common or separate but shall be clean and provided with water from tap. Cleaning arrangements shall be made to swab daily the wards with antiseptic lotion.

3. Staff. - (a) Doctors. - The hospital shall employ only registered medical practitioner to treat the patients. The doctor shall also be registered in the Council under his respective system of medicine or in the Council/Board for Indian System of Medicine.

(b)

Nurse. - A qualified nurse shall be available at the ratio of one nurse and two Nursing Assistant for upto thirty beds.

(c)

Pharmacist/Therapist. - Pharmacist/Therapist qualified in the respective system of medicine shall be employed for dispensing of medicines. If the hospital has more than thirty beds, for less than thirty beds the doctor himself can dispense the medicines or employ a qualified pharmacist/Therapist.

(d)

Other Staff. - Other staff like Mazdoor etc. shall be employed as per need. Sufficient number of cleaning staff shall be available at least one for every thirty beds.

4. Equipment. -(a) The following Exercise Therapy equipments shall ordinarily needed for all Siddha Hospitals, namely: -

(i)

Traction Kit

(ii)

Walker

(iii)

IR light

(iv)

TFT and Ultrasound Therapy Instrument

(v)

Vibrator (Manual and Electronic)

(b)

The following equipments ordinarily required for all Siddha Hospitals, namely:-

(i)

Thokkanam table

(ii)

Vedhu Chamber

(iii)

Wax bath machine

(iv)

Karanool

(v)

Kazhichal endhiram

(vi)

Vaanathi maruthuvam Chair

(vii)

Nasiyam Chair

(viii)

Peetchu endiram-Disposal Packs

(ix)

Kidney Tray

(x)

Motion tray

(xi)

Nebuliser Set

(xii)

Moving Stretcher

(xiii)

Disposable Syringes

(xiv)

Surgical instruments for common procedures, First Aid

(xv)

Parenteral drugs and infusion related equipments

(xvi)

Equipments needed for specific Aga maruthuvam, puramaruthuvam procedures.

(c)

Equipments for Yoga and Naturopathv. -

Yoga Therapy. -

(i)

Carpets /coir mats

(ii)

Jala neti pot

(iii)

Eye wash cup

(iv)

Yoga charts

(v)

Sutra neti rubber catheter Hvdrotherapv.-

(i)

Enema can

(ii)

Steam bath cabin with Automatic steam generator

(iii)

Facial sauna

(iv)

Fomentation bag

(v)

Ice bag

(vi)

Packs - Chest, Leg, Arm, Knee, Abdomen, GH Pack, Renal, Full wet sheet pack

(vii)

Linen cloth for compress

(viii)

Epsom salt-packets

(ix)

Hip bath tub

(x)

Spinal bath tub

(xi)

Spinal Spray

(xii)

Foot and arm bath tub

(xiii)

Small and Big towels

Mud Therapy. -

- (i)
Mud storer-100 lts barrel-2
- (ii)
Linen cloth- for preparing mudpacks
- (iii)
Mud trays
- (iv)
Bucket and mug-2
- Magneto Therapy. -
 - (i)
High, Medium, Low power magnets with keepers
 - (ii)
Magnetic belt - Neck, Abdomen, Knee, Wrist
- Massage Therapy. -
 - (i)
Massage table-cushioned and covered with rexin
 - (ii)
Foot stepper
 - (iii)
Vibratory massager
 - (iv)
Roller massager
- Chromotherapy. -
 - (i)
Colour lamps
 - (ii)
Colour glass bottles
 - (iii)
Color Thermoleum
- Electrotherapy. -
 - Infra red lamp (IRR)
- Acupuncture/Acupressure. -
 - (i)
Moxa stick
 - (ii)
Electronic Acu - stimulator
 - (iii)
Reflexology chart
 - (iv)
Acu-Roller-Spinal, Spinal, Palm, Soles, Legs, Fingers
 - (v)
Acupuncture needles- copper-(0.25x25)
- 5. Physical fitness
 - (i)
Static cycle
 - (ii)
Manual Treadmill
 - (iii)
Rowing machine
 - (iv)
Overhead pulleys

6. Infrastructure. - Clinic shall have the consultation items and minimum equipments to give out patient treatments. Hospital shall have all the equipments along with diet centre to prepare bland diet, natural diet, herbal juice and other special diet therapy for various diseases. In addition to above, first aid and emergency management need to be provided. Sufficient number of Wheel Chairs, Stretchers shall be available at least one per every thirty beds.

7. Records. - (1) A record of all patients admitted / treated shall be available along with the investigations diagnosis and treatment. The patient shall be provided with a discharge slip containing the details of investigation, diagnosis, treatment and follow up etc.,

(2)

The following register shall be maintained. It is the duty of the clinical establishment to give all the relevant particulars to the patients on demands.

(i)

Admission and Discharge Register

(ii)

Contagious and infectious disease register.

(iii)

Medico legal cases register (in case medico legal cases are brought there for treatment at any stage) Records with full address shall be kept ready for verification by the District Committee.

C. General Conditions To Be Fulfilled By The Hospitals Under Allopathy And Ayush.

1. Communication. - A telephone connection shall be available for use by patients (on payment)

2. Security. - Sufficient security shall be provided for the safety of inmates and to prevent theft.

3. Fire Fighting. - Fire fighting equipment with I.S.I. mark shall be provided as per rules in the hospital.

4. Kitchen. - If food is provided to inmates, the kitchen shall be clean and the cook(s) shall be periodically, medically examined for any infection or contagious diseases.

5. Clothing and Linen. - It shall be clean and changed daily.

6. Water Supply. - The potable water shall be provided to the patient.

Hospital

General Practice Services

Maternity Home

Single speciality Services

Multi Speciality Services

Super speciality Services

Operation Theatre

Emergency Casualty

Intensive Care Unit

ICCU

Any other please specify

10. Whether the clinical establishment,-

(a)

is attached with Laboratory (if so, please tick whichever is applicable)

Pathology

Haematology

Histopathology

Cytology

Genetics

Samples Collection Centre

Any other (Please specify)

Biochemistry

Microbiology

Any other (please specify)

If answer to (a) above is yes, the following details may be furnished, namely: - Tests that it proposes to carry out -- List of equipments available

-- A list of technical staff (both technical and supervisory)

-- List of personnel who are going to sign test reports.

(b)

is attached with Imaging Centre (if so, please tick whichever is applicable)

Portable X ray

Conventional X Ray

Digital X Ray

X Ray with computed Radiography system

Ultrasound

Ultra sound with Color Doppler

Mammography

Orthopentogram(OPG)

CT Scan

Magnetic Resonance Imaging (MRI)

Positron Emission Tomography (PET) Scan

Bone Densitometry

Uro -flowmetry

Any other (Please specify)

(c)

is attached with Blood Banks (if so, please tick whichever is applicable)

(A) Based on Location

Stand alone

Hospital Based

Any other (please specify)

(B)

Based on Facilities

Blood bank/Centre having whole blood facility only

Blood bank/Centre having whole blood and component facility

Blood bank/Centre having whole blood and/or component facility with any other additional facility (please specify):
