Medical Board's Reports

The following intimation is made for the guideline of the Medical Examiner:-

No person will be deemed qualified for admission to the Public Service who shall not satisfy Government or the appointing authority, as the case may be, that he has no diseases, constitutional affection or bodily infirmity unfitting him, or likely to unfit him for that service.

The Commission desires that it should be understood that the question of fitness involves the future as well as the present, and that one of the main objects of medical examination is to secure continuous effective and in the case of candidates for permanent appointment, to prevent early pension or payments in case of premature death. It is at the same time to be noted that the question is one of the likelihood of continuous effective service and that rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service.

Before filling up the form it should be ascertained from the candidate whether he has been previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.
